PROFILE

Results-oriented AI engineer with over seven years of experience developing scalable deep learning solutions that spur digital transformation and innovation. skilled in using cutting-edge AI/ML methods and model optimization to transform complicated data into useful strategic insights.

EDUCATION

2023 - 2025

BITS, PILANI

- M.Tech. in Artificial Intelligence and Machine Learning

2014 - 2018

ANNA UNIVERSITY

- B.E. in Electrical and Electronics Engineering

WORK EXPERIENCE

March 2022 - PRESENT

EXL SERVICE | Hyderabad, Telangana, India

Data Scientist

- Spearheaded development of Generative Document and Text Generation systems using LLMs and Lead the end-to-end development of LLM and RAG-based systems.
- Spearheaded the development of an AI-driven system using Flask/Django to classify, summarize, and convert unstructured ASPICE strategy documents into structured data via OCR. Integrated LLaMA with LangChain for intelligent document understanding.
- Designed and fine-tuned Transformer models like ChemBERTa and BioGPT for domain-specific NER, semantic matching, and text generation.
- Developed and Designed quantum-classical hybrid models for precision medicine with PennyLane and PyTorch, integrated into a Google ADK chatbot leveraging MCPs for TTS, Notion, and Reddit.
- Refined OpenAI models using Microsoft Copilot Studio to develop GenAI PoCs for text, PPT, and Excel generation. Leveraged Azure OpenAI, Azure Search with hybrid semantic vectorization, and containerized data for domain-specific content synthesis.

Feb 2018 - March 2022

TTEC SERENDEBYTE | Chennai, Tamil Nadu, India

Senior Software Developer

- Lead, mentor, and managed as a Pega Decisioning Consultant with hands-on experience in Pega 7.2 and 8.0, optimizing customer engagement strategies through AI-driven decision frameworks.

SKILLS

Python

Azure, AWS, GCP

SQL

Gen AI & Prompt Engineering

NLP

Flask, LangChain, Hugging Face
Transformers, PyTorch

Llama 2, GPT-4, BioGPT, ChemBERTa

ACS

PostgreSQL

Leadership

CERTIFICATIONS

- ADaSci Certified : Prompt Engineering for AI Engineers
- ADaSci Certified : Generative AI Data Engineer Learning Track
- ADaSci Certified : Generative AI Engineer Learning Track
- ADaSci Certified : Full Stack GenAI Engineering
- Course Certificate- Artificial Intelligence and Deep Learning from IIT Roorkie
